

# NETWORK *Notification*

**Notice Date:** October 2, 2023  
**To:** Ohio CareSource Providers  
**From:** CareSource  
**Subject:** Annual Notice of Requirements - UPDATE

---

This notification is an update to the [network notification](#) posted on Sept. 13, 2023. Updated information is indicated in red.

Due to a delay with the Provider Education Attestation Form update, the Annual Notice of Requirement is not an option in the drop-down menu. We are asking all providers to select "Provider Orientation" from the menu until the update is complete. CareSource will be tracking those providers who complete the attestation form and select "Provider Orientation" as attesting to the Annual Notice of Requirement through the end of October 2023.

## Summary

CareSource providers are monitored on an ongoing basis to ensure continued compliance with participation and provider agreement requirements. While we acknowledge that we provide frequent updates during the year, this notification is to bring to your attention important participation requirements that necessitate action on your part. This notification also highlights important operational and administrative related guidance to help you operate successfully as our health partner. Please access the annual notification of requirements document [here](#).

## Impact

CareSource is required to initiate action in the event that these requirements are not satisfied. Our goal with this notification is to help improve your experience by providing you with the appropriate process updates in response to your inquiries.

## Attestation

[Provider Education Attestation](#): Please use this form to provide attestation of completing the education requirement.
